授業の内容 This lecture will review the history of the European Integration and the institutional basis of the EU. The complementary relationship between the market integration and the public policies will be carefully considered by introducing some practical cases in the EU and its main member states. It is our goal to understand the process of the European Integration and the characteristics of the European style of capitalism.
到達目標 The learning goals of this class are the following. 1) To be able to explain the history and development processes of the European Integration. 2) To be able to explain the functions of the major institutions and the decision-making process in the EU. 3) To be able to understand the significance of market integration and the role of regional policy. 4) To be able to understand the political economy in the EU major countries.
