授業の内容
<p>This course provides students with an overview of the Japanese economy and management and enable them to discuss the issues on the wide variety of related topics.</p> <ul style="list-style-type: none"> <li>For Japanese students this class provides you with the ideas of good presentation and how to prepare your presentation. First, you have to know Japan well; and some basic facts/information of Japan will be taught. Second, you choose your topics to talk and study how to make your presentation. Third, you make presentations in class as if you were at a foreign university.</li> <li>For foreign students this class is the first place to know Japanese economy and business. Besides studying it with Japanese students, this should be also a good place for you to think about the problems of your country in comparison with those of Japan.</li> </ul>
到達目標
<ul style="list-style-type: none"> <li>Speaking English fluently is important, but the goal of this class is to make yourself understood well. This is the first thing to do.</li> <li>The second thing, which is more important, is what you talk. You have to know your topic well and have to have your own way of thinking.</li> <li>These are the goals to achieve in the class.</li> </ul>
授業の方法
<p>In addition to conducting real-time distance lessons using Zoom, students are required to read materials presented in the WebClass and submit reports there. Class will proceed in an interactive way; and the students are encouraged to be active participants. Communication in the class is basically English, but you can talk in Japanese if you have a difficulty.</p>
